

Parklands Educate Together Primary School

February 2024

Safer internet day- 7th Feb.
We will link our learning to Articles
17,19 and 34.

What an exciting January!

There have been a lot of wonderful opportunities for the children in the last few weeks, helping to make their learning as much fun and engaging as possible. The reception children went on a walk around the local area (which is seeing so many changes at the moment), Year 1 visited the WsM Museum as part of their project work on fossils, Year 2 had their visit from the Birds of Prey Centre and Year 5 had an Egyptologist in school. The children in Years 3 & 4 also started their forest school sessions which they are very much enjoying. The month may have seemed extremely long to some of the adults, however hopefully these activities make learning fun for the children.

Birds of Prey

We were privileged to have the North Somerset Birds of Prey Centre visit our Year 2 children to teach them about different birds as part of their topic work. The children were absolutely fascinated and had a wonderful morning with them.

Olympian visit

We have the Olympic athlete Laura Deas visiting us next week, talking about life as an athlete and doing some circuit training with the children.

Healthy Lunchboxes

There are lots of websites and social media posts around with some lovely ideas for what to put into a packed lunch. Whilst we know some options are expensive, there are plenty of ways to make them healthy and exciting. We don't overly 'police' the lunchboxes, but have noticed some children are bringing in a lunch comprising only of crisps or chocolate (and have been in touch with those families). Please do consider a school lunch as there are a lot of options, and many children can have this for free.

TikTok- search for #lunchboxideas #schoolslunch #schoolslunchboxideasforkids

Apologies we can't post the links as we don't yet have a TikTok account

Child sickness absence

We have had a lot of absences recently, and although the majority of families contact us and leave a message to say their child is not going to be in school, could you also let us know the reason. This is particularly important as we need to monitor trends and also be able to enhance cleaning etc if necessary.

Food Vouchers

Please don't forget that we are able to issue food vouchers if you find yourself struggling at home. The half term can add pressure to your budget, so you can ask at the main office or see Natalie in the playground and we will help.

Dates

February

5th & 6th - Parent's Evenings

8th - Olympian in school

9th - Reception Toy Tea Party

9th - End of Term

19th - Term 4 starts

w/b 26th - Book Bonanza Week!
