1. What type of SEND do you provide for?

Click here to go back to contents page

At **Parklands ET**, from Reception to Year 6, we currently provide additional and/or differentiated provision for approximately **19.2%** of our pupils (**14% SEN support, 5.2% EHCP's**). These pupils have a range of SEND needs, including…

Communication & Interaction needs

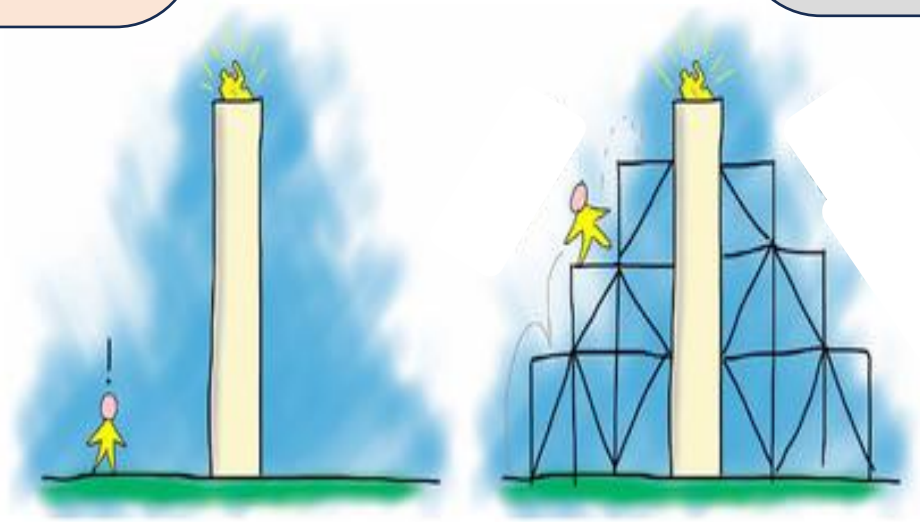

This category of need includes amongst others:

- Understanding language (receptive)
- Using language (expressive)
- Speech
- Autism Spectrum Condition

Social, Emotional, Mental Health needs

This category of need includes amongst others:

- Social understanding and interaction
- Emotional literacy and regulation
- Autism Spectrum Condition
- ADHD

Cognition and Learning needs

This category of need includes amongst others:

- Dyslexia
- Dyscalculia
- Processing difficulties
- Memory

Physical & Sensory needs

This category of need includes amongst others:

- Visual impairments
- Hearing impairments
- Fine and Gross motor skills/mobility
- Sensory processing difficulties

We keep a record of all pupils who require additional and/or different provision using our SEND register. We use four different categories when recording pupils on the register.

EHCP (official SEND register)

- Term used nationally (SEND code of practice)
- Descriptor given for pupils who are identified as SEND but whose needs cannot be met using the school's internal SEND budget (element 2 funding) and who require further specialist support and provision.
- Parents/carers always notified of status

SEND support (official SEND register)

- Term used nationally (SEND code of practice)
- Descriptor given for pupils who are identified as SEND but whose needs can be met by targeted provision using resources from school budget
- Parents/carers always notified of status

Investigating

- Term created for internal use at ETAT
- Pupils on Inclusion register but not counted as official SEND register
- Used during step 3a of "Identification and Assessment procedures" (see slide 10)

Monitoring

- Term created for internal use at ETAT
- Pupils on Inclusion register but not counted as official SEND register
- Used when a child has come off the SEND register.
- We carry on monitoring for another 12 months before completely removing a child

2. How do you identify and assess the needs of pupils with SEN?

Click here to go back to contents page

Progress as an indication of SEND

The SEND code of practice (2015) states that a potential need for Special Educational Provision is identified when a pupil's level of **progress**:

- Is significantly slower than that of their peers starting from the same baseline
- Fails to match or better the child's previous rate of progress
- Fails to close the attainment gap between the child and their peers
- Widens the attainment gap

This may include progress in areas other than attainment, for example, social needs, difficulties with emotional regulation or physical development.

Our Identification and assessment procedures for SEND

High Quality Teaching as foundation

Ordinarily Available Provision (OAP) refers to the inclusive, high-quality teaching and everyday adjustments that mainstream schools are expected to provide for all children. It covers the basic support and resources required for learners with SEND before any specialist, external involvement is required. Such as implementing **Reasonable Adjustments** (e.g. small environmental or structural changes, such as visual timetables or flexible seating).

To identify Special Educational Needs the highest priority and first consideration must be to ensure that all pupils receive '**Quality First Teaching**'. **QFT** is an inclusive, evidence-based approach that focuses on high-quality, daily classroom instruction for all pupils, which uses inclusive practices to remove barriers to learning. With this foundation, a consistent use of the **Graduated Approach to SEND support** (click **here**) is then used to identify and support pupils with Special Educational Needs, which uses a four-part structured, stepped approach known as '**Assess, Plan, Do, Review**' (APDR).

Our Identification and assessment procedures for SEN

Step one: Assessment at whole school level:

- Regular assessments for ALL pupils as part of school assessment cycle
- Whole school tracking data
- Early identification of any specific barriers to learning through whole school screeners e.g.: Talk boost/ Verbo (reception) and Lucid Rapid Dyslexia screening (Year 3)

Step two: Plan and carry out intervention (Do)

- Pupils whose progress is a cause for concern are discussed at termly progress meetings.*
- The class teacher uses assessment information to identify any specific areas of weakness and implement a targeted intervention plan to be reviewed alongside the SENDCo within one term. (The class teacher can do this at any point during the year if they identify concerns before termly progress meetings)
- An assessment for a targeted intervention plan can also be triggered, if a parent raises a concern to the SENDCo about a child, at any point during the year.

** Pupils who have made accelerated progress are also discussed and, if appropriate, pupils may be moved from **SEND support** to **monitoring** on the SEND register.*

Our Identification and assessment procedures for SEN

Step three: Review

3a) Pupil **fails to make expected progress** despite high **Quality First Teaching** targeted at their area/s of weakness → The class teacher and the SENDCo, in collaboration with the child/parents, use the SEN toolkits to assess whether the child has a learning difficulty and/or disability which calls for special educational provision to be made for them.

Other potential causes for lack of progress are explored e.g., pastoral concerns, EAL.

If a Special Educational Need is identified, the child is added to the SEND Register as 'SEND support'. If further investigation is required to determine need, a decision may also be made to place the child as 'Investigating' on the SEND register.

3b) Pupils **makes expected progress** →

- If the progress appears to be dependent on support that is 'additional to' and/or 'different from' the mainstream offer – see step 3a)
- If all gaps in learning have now been closed, no further action is required.

Our Identification and assessment procedures for SEN

Step four: Successive cycles of the graduated approach (SEND support)

- Planning and review meeting held by SENDCo and class teacher with pupil, parents and other key professionals (if relevant) in order to:
  - Carry out a clear analysis of need and agree sought outcomes.
  - Create a One-Page Profile and provision map for 'in class support' and, when there are specific targets to work towards*, create an Individual Learning support Plan (ILP) to include identified strengths, target skills, next steps and agreed provision.
- Provision continues to be reviewed and adapted on a termly basis using successive cycles of the graduated approach. This may include input from external professionals and specialist advice or assessments, if strategies put in place by the school are not sufficient in meeting the child's needs. The type of plan will vary depending on the type of need.
- If the child requires support that extends beyond what can be provided using element 2 funding, a request for an **Education Health Care Plan** assessment should be considered in collaboration with the pupil and parents/carers. You can find more details about EHCP assessments here. If granted, the child is recorded on the SEND register as **EHCP.**

**In some cases, when the focus is on adaptations the school needs to make to the environment, a One-Page Profile and provision map is sufficient*

Click here for a one-page summary of our identification and assessment procedures for SEN

3. Who should I contact if I want to share information about an existing SEND need or think my child has SEND?

Click here to go back to contents page

Stage 1. Class teacher

Please contact your child's **class teacher** first. They will discuss your concerns with you and agree on next steps to ensure your child receives the support they need.

When appropriate, they will liaise with you, your child and the school SENDCo to implement the graduated approach to SEND support as outlined in this report.

Stage 2. SENDCo

The school SENDCo at Parklands ET is **Morgan Hardy.**

Morgan usually works Monday – Wednesday.

See page 108 of the SEND code of practice (click here) for a full description of the SENDCo role. For specific questions relating to your child's needs, contact their class teacher about your concerns (see Stage 1). If you have any **general queries** related to SEND provision, you are invited to contact **Morgan** at any point during the school year. **senco@parklandset.org.uk**

4. What is your approach to meeting the needs of children with SEND and how do you advocate pupil and parent/carer voice?

Click here to go back to contents page

We use the Graduated Approach

(see slide 8)

Pupil/parent voice are always placed at centre

Understanding needs of the child:

Each cycle of the Graduated Approach helps us to gain a greater understanding of both the child's needs and what helps them to make progress, secure positive outcomes and feel happy and safe at school.

Assess: The first step is to collect information to better understand need or barriers to learning and wellbeing.

Plan: Once needs are understood, adaptations, provision and other support can be planned. Signposting and requests to other services may be made. Expected outcomes can be agreed.

Do: In this step, the plan is put into practice. This may involve strategies at home and in an educational setting.

Review: The impact of the plan is reviewed in partnership. Good progress may mean SEN support is no longer needed; lack of progress will require the assess-plan-do-review cycle to be repeated and for adaptation of support to take place.

How we implement the graduated approach

Pupil/parent voice placed at centre

Frequency
We complete one cycle and hold learning plan and review meetings (every long term) **3 times per year,** using the documents described below.

Collaborative – pupil and parent voice
This is a collaborative process with pupils and parents/carers taking an active role as possible within each stage (assess, plan, do, review) of the process.

Individual learning plans (ILPs)
SEND support: For pupils requiring individual targets, we have **individual learning plans (see here)** to record termly assessment, planning, additional provision and reviews. The type of plan varies from child to child depending on their specific areas for development or support. This is held by the class teacher.
EHCP: Each long term (x 3 per year), there is a learning plan meeting to identify the next steps for each child in working towards their overall outcomes from section E of their EHCP. This is held by the SENDCo.
Pupil and parent voice: Whenever possible, pupils or their parents play a central role in setting their own targets and choosing how they will monitor their progress in order to encourage full ownership.

One-Page Profiles (OPP's)
We work with all of the children on the SEND register, alongside their parents/carers and key staff members to create a One-Page Profile (see here). These profiles are available in the classroom to ensure easy access for all adults. For pupils who do not require individualised targets an OPP and PM is all that is required.

Individual provision maps
For pupils at **SEND support** (see slide 5) a provision map is included on the back page of their OPP to identify which elements of our core offer are of particular benefit. Any additional provision is recorded on their ILP.
Pupils with **EHCP's** have a one-page profile and a summary of the provision outlined in their EHCP on their provision map (on the back of their OPP).

Graduated approach to meeting needs of children with SEND (Assess)

4a. How do you use ‘assessment’ to meet the needs of children with SEND?

Click here to go back to contents page

Use of small step assessment tools

In addition to our whole school assessment approach (see slide 9), when useful, we may use further small step assessment tools for children with SEND .

Click here for 'Assessment guide for children with additional needs or working significantly below'.

What's the process?

- We carry out these assessments 3 times a year, just before we have SEND progress (ILP) meetings.
- Results are recorded on Individual Learning Plans and used to help everyone at the meeting review progress and agree on next steps.

Why?

- Use of these tools can help show small steps progress and build self-esteem.
- Progress measures, enable us to gain a further understanding of a child's needs and whether the provision we have in place is working.

Graduated approach to meeting needs of children with SEND (Plan and Review)

4b. What is your approach to 'planning' and 'reviewing' to meet the needs of children with SEND?

Click here to go back to contents page

Termly planning and reviewing for pupils at SEND support

Individual Learning Plans (ILP's): SEND progress meetings x 3 per year

We have SEND progress meetings three times a year with the pupil (if able to access the meeting), parents/carers and the class teacher. When relevant, the SENDCo and/or external professional are also present. We use this meeting to review progress and create an updated individual learning plan for the next term.

Planning for provision

When setting targets, we also agree how the child will be supported to meet those targets. Provision from the core offer will be recorded on the child's **OPP and provision map**. Any provision that is 'different from' or 'additional to' the core offer will be noted on the child's ILP. During the meeting we also review provision already in place and whether it is working or not.

Team approach to setting targets

We encourage pupils and their parents/carers to choose next steps based on:

- their own aspirations and interests
- their strengths
- assessment and review information that we share
- Suggested next steps from external professionals (if relevant)
- Advice from class teachers

Pupil ownership of targets and metacognition: When setting targets as a team (some targets are given e.g., from a Speech and Language Therapist or other professionals), we aim to maximise the role of the pupil and their parents or carers. We use a specific set of questions to enable pupils and their parents/carers to clarity the exact goal and decide how it will be measured, how progress will be monitored, what support will be in place and what everyone's roles will be. The use of these questions supports a skill called Metacognition – one of the most effective strategies for supporting learning according to the Education Endowment Foundation's study of the impact of different types of interventions (click here).

Termly planning and reviewing for pupils with EHCP's

Setting termly SMART targets with pupils and their parents/carers

- Section E of the EHCP details the overall outcomes that have been agreed for the child.
- During the annual review, we aim to agree on short term targets for the next year.
- During the progress meetings, we review your child's progress towards the yearly short-term targets and **support the pupils and their parents/ carers** to choose next steps for the following term, based on progress made so far, with advice from external professionals (where relevant) and the class team.

EHCP progress meetings and annual review x 3 meetings per year: For pupils with EHCP's, we have three meetings each year with the pupil (if able to access the meeting), parents/ carers, the class teacher and the SENDCo (two progress meetings and one annual review). External professionals are given the dates for these meetings at the start of the year and attend when possible, prioritising the annual review. The Inclusion officer from North Somerset LA is also invited to the annual review but is not always able to attend. For more details on the Annual review process **click here**.

Planning for provision: We review provision from section F of the EHCP each term. If any of the agreed provision is not working, we agree on new strategies or approaches to try. Any changes made during the year are added as annotations to section F during the annual review process.

Steps to Success mentoring: (for pupils who are able to access this approach) SMART targets are written in a way which helps to track progress. However, the language used in SMART targets is not always child friendly. The pupil with support from their LSA or teacher will discuss targets and re-write them in their own words. They will then think about how they can achieve the targets and what tools they can put in place within the classroom to help them remember and track their progress. This process supports a skill called Metacognition – one of the most effective strategies for supporting learning according to the Education Endowment Foundation's study of the impact of different types of interventions (click here).

Graduated approach to meeting needs of children with SEND (Plan)

4c. How do you adapt the curriculum for pupils with SEND?

Click here to go back to contents page

Adapting our curriculum for pupils with SEND

Our aim is to provide a high quality, equality-based education which is inclusive of all children.
We aim to ensure that:

- all children have equal opportunities to access the curriculum.
- all children contribute and participate in all aspects of school life alongside their peers.
- all children have the support and provisions necessary to enable them to learn and achieve.

Our curriculum includes not only the formal requirements of the National Curriculum, but also our ethical education curriculum. This program is called the “Learn Together” curriculum and is published by Educate Together. It defines the core values of all teaching and learning in the school. It is subject to continuous review and development. Our curriculum also includes the social aspects that are essential for developing independence and personal development for all pupils.

Our school offers a broad, balanced and ethical curriculum. We adapt the curriculum for pupils with SEND in the following ways:

- High Quality First Teaching: accessing a broad and balanced curriculum where barriers to inclusion are removed.
- Using a range of different teaching and learning strategies.
- Using resources or equipment to support a specific need.
- Using scaffolding to provide support.
- Differentiated learning materials.
- Providing in and/or out of class support.
- Using flexible groupings.
- Providing specific interventions or boosters in small groups or 1:1.
- Implementing support and advice from external agencies.
- Providing a broad range of extra-curricular activities.

Graduated approach to meeting needs of children with SEND (Do)

4d. How do you ensure Quality First Teaching and an Inclusive learning environment?

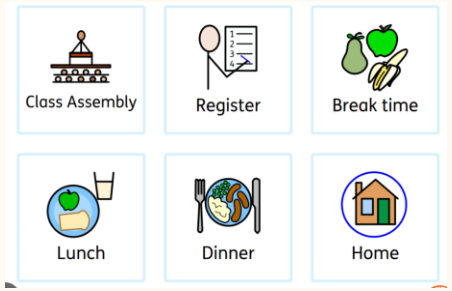

Educate Together's: High-Quality Teaching and Inclusive Environment

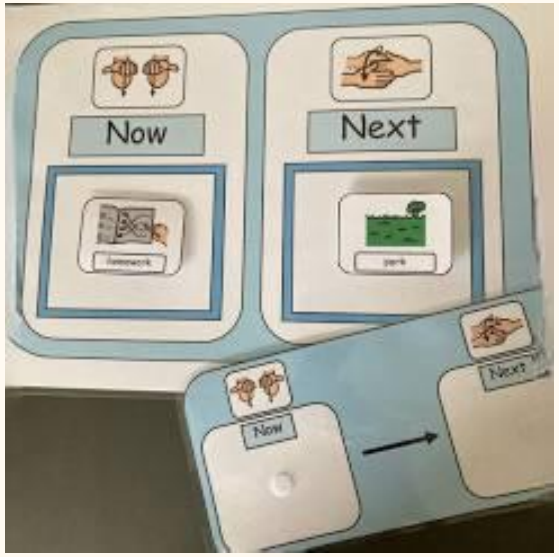

(First step and foundation for quality SEND support - core offer)

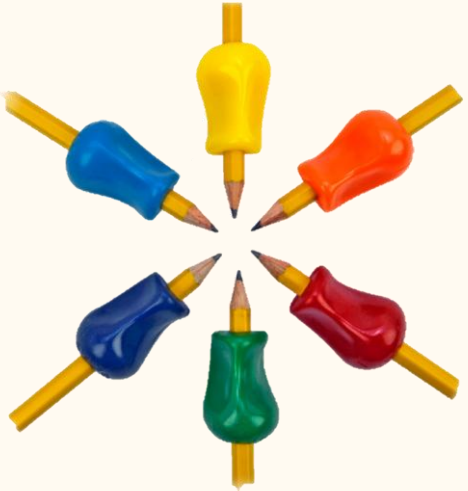

Click here to go back to contents page

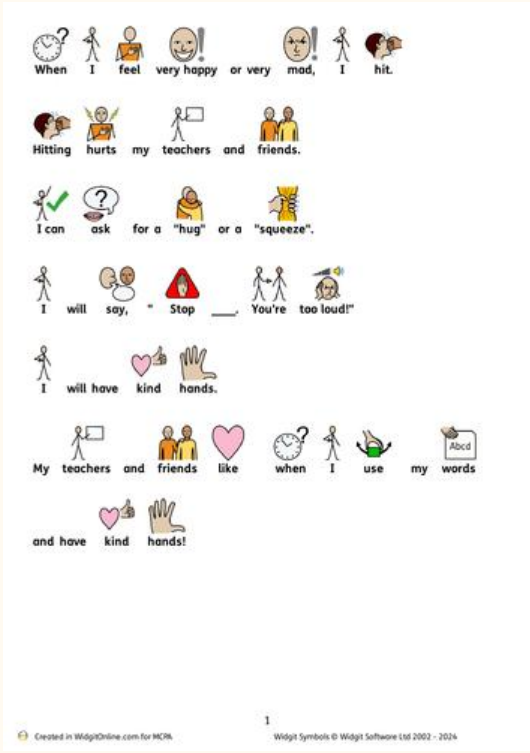

Educate Together's High-Quality Teaching and Inclusive Environment

Click here to see overview of guide to High-Quality teacher and the core offer we aspire to.

Graduated approach to meeting needs of children with SEND (Do)

4e. What additional support is available for pupils with SEND

(additional to and different from offer, including EHCPs)

Click here to go back to contents page

Educate Together

Provision that is “different from” or ”additional to” the core offer we aspire to (**SEND support**)

Cognition and Learning needs

Additional resources

- Coloured overlays
- Light blue or beige/cream writing paper
- Individual, visual task break downs or schedules
- Sandwell maths assessment

Interventions e.g.:

- Precision Teaching (core skills)
- TEACCH – multi-sensory, structured approach to learning
- Referral to an Educational Psychologist or a Specialist Teacher and programme of support

Communication and Interaction needs

Additional resources

- Key individualized visuals to support communication
- Communication Pathways e.g.: PECS, Makaton, iPad, voice recorder, Specialist assistive technology

Interventions e.g.:

- Attention Autism (Bucket Time)
- Lego Play/Play-doh play
- Colourful Semantics
- Time to Talk
- vocabulary group
- Speech and Language Therapy (SaLT) referral and programme of support including specialist areas e.g. speech, voice, support for selective mutism
- Language for Thinking

Social, Emotional and Mental Health needs

Additional resources

- Now/next board
- Individual visual timetables
- Visual schedules for key routines
- Five-point scale or similar
- Reward/report chart
- Calm box
- Choosing board
- Individual behaviour plan
- Personalised Social Stories

Interventions e.g.:

- Group ‘Theraplay’
- Drawing and talking
- Nurture group
- Zones of regulation sessions
- Play skills/social skills
- Referral to SaLT /EP/Behaviour support and programme
- Thrive
- ELSA
- Soft starts/landings

Physical and Sensory needs

Additional resources

- Desk slope/pencil grips
- Sensory toys, manipulatives, resources
- Ear defenders
- Handouts with extra large print
- Specialist sensory equipment e.g. hearing aids, balls with bells inside, braille etc.
- Specialist mobility equipment
- Bands for chair legs

Interventions e.g.:

- Sensory regulation exercises
- Use of sensory space / OT equipment inc. sensory circuits
- Fine motor skills
- Handwriting
- Physiotherapist or OT referral and programme of support

Education and Health Care plans (EHCP’S): We use our Element 2 budget to provide additional support described above. If a pupil requires highly specialised support that goes beyond the school’s resources, the school may request an assessment for an **EHCP** and additional funding to ensure the right level of support. Click here for more information on EHCPS

Graduated approach to meeting needs of children with SEND (Do)

4f. What is the skillset of our staff and what training have they received in relation to supporting children with SEND?

Click here to go back to contents page

Skillset and professional development for staff at Parklands ET in relation to SEND

Individual Staff CPD

At Parklands ET, we are continuously in the process of developing a SEND learning pathway with essential modules for all staff members to complete. The training covers knowledge of different types of SEND, implementation of the graduated approach to SEND support and all the strategies and interventions that form both our core offer and our "different from and additional to" offer.

Targets for SEND are included within yearly performance development reviews, and teaching staff are given additional time for SEND planning for their class, for both in and out of class support.

Staff specialisms and learning support structure

Within our Learning support team, different staff members take the lead for specific areas of support. Ensuring a wide range of skills, training and knowledge informs our recruitment strategy. The learning pathway gives options for staff to further develop areas of expertise in specific areas.

Whole school SEND training

- Graduated approach to SEND support
- Use of small steps assessment tools
- Accelerated Reader for reading
- Read Write Inc for reading
- Common exception word assessments
- Autism Awareness
- Making Sense of Autism
- Zones of regulation – strategies to support sensory and emotional regulation
- De-escalation strategies
- Restorative Justice
- Emotions coaching
- Colourful semantics (language structure)
- Lego play
- SMART target setting
- Sandwell numeracy
- GL ready Dyslexia screeners
- Bucket Time (Attention Autism)

Specialist Training

Thrive, Autism Champions, TEACCH approach,

SENDCo TEAM

SENDCo's across the trust receive support and guidance, from their headteacher as well as accessing guidance from each of their Local Authority. Each Local Authority have CPD opportunities for SENDCo's to access.

External professionals

Our team of external professionals (see slide 31) offer coaching and training on specialist strategies and interventions required for pupils on an individual basis. This is another way in which staff are able to develop areas of expertise.

5. How do you ensure that children have access to specialist support from external professionals and organisations?

Click here to go back to contents page

Parklands ET works in partnership with a range of specialists commissioned through North Somerset Local Authority, SIRONA and other providers, including:

Local authority education and health care providers

- North Somerset SEN team.
- North Somerset Specialist Autism advisors
- Child and Adolescent Mental Health Service (CAMHS). Before making referrals to CAMHS we discuss cases with our…
- SIRONA Educational Psychologists (EP)
- SIRONA Occupational Therapists (OT)
- SIRONA Community paediatrics
- Sensory Support Service (for visual and hearing impairments)
- SIRONA School Nurse service
- Mental Health Support Worker
- SIRONA Local Authority Speech and Language link Therapist (SaLT)
- Baytree Outreach Service.

Private organisations and charities

- Various charities and organisations to support and advise on SEND and mental health, such as OTR, National Autistic Society and Carers Support Alliance.
- Brighter Futures Educational Psychology services – we have contracted a minimum of 15 days per year across the Trust for additional advice, supervision and assessment work, to meet growing need.

Local community

Our collaborative principle

As part of our ”collaborative” principle, we are seeking to increase our collaboration with parent and local community volunteers this year with the aim of extending the range of interventions we run for children in school and expanding our knowledge and skills base by receiving input from local experts.

Please do get in touch if you are interested in volunteering, or you have specialist skills or knowledge you would like to share in relation to supporting our children with SEND.

6. How do your support “Looked after Children” (LAC) who also have Special Educational Needs?

Click here to go back to contents page

Supporting ‘Looked after children’ who are also on the SEND register

Graduated approach & Individual Learning Plan

As with all our pupils on the SEND register, we use the Graduated approach to ensure quality SEND support. They will also have an ILP, or if needed an EHCP that links to their PEP outcomes.

Termly multi-professional meetings

The pupil (when appropriate), class teacher and carers will meet three times a year (as with all SEND pupils) to update the ILP or EHCP and review support and outcomes, in addition to PEP meetings.

Personal Education Plans (PEP’s)

is a statutory working document and action plan for children in care. It outlines their educational needs, academic targets, and the support required to help them reach their full potential.

Collaborative approach between SENDCo and the Designated teacher

The Designated teacher for Looked after Children and the SENDCo work together to ensure the school is working collaboratively to ensure the best support possible.

7. How will you support my child when they start/leave your school or move to another year group?

Click here to go back to contents page

Supporting SEND children with key transitions

Understanding that transitions require support

We know that change can be particularly challenging for many children with SEND. We implement individualized transition programmes to ensure the process is as smooth as possible.

Collaboration

If your child is going to or coming from another setting, we work closely with that setting to ensure we have shared all the key information required for your child to continue receiving the support they need.

Teachers hold handover meetings and work closely together to ensure effective transitions from one class to another.

Individualised transition programmes

We create transition programmes based on the child's needs and the type of transition. Examples of support could include:

- Regular conversations with staff members about the new setting.
- Use of key visuals e.g. countdown timetable, transition booklet with key information and pictures of the new setting
- Individual and/or whole class transition visits to the new setting
- Providing opportunities for staff from the new setting (when appropriate) to visit and spend time with the pupil at our setting. If required, we can look at visits both during and after the school day.
- When needed, we work with parents or carers to arrange an initial transition timetable moving from part-time attendance to full time.

8. How do you evaluate the effectiveness of the provision made for pupils with SEND?

Click here to go back to contents page

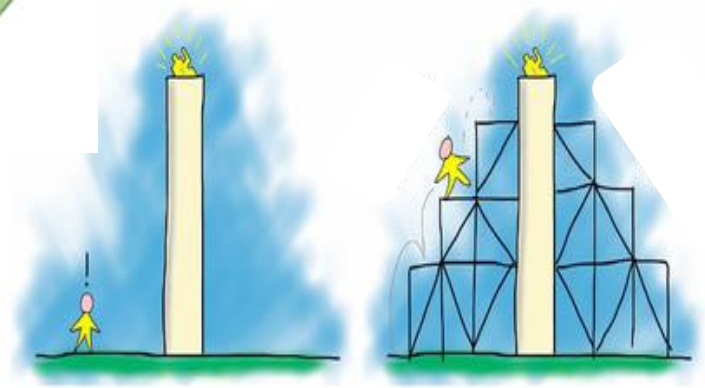

Evaluating the effectiveness of SEND provision

Termly individual reviews (Graduated approach)
The termly reviews as part of our SEND progress meetings (see slide 20) enable us to monitor and evaluate the effectiveness of SEND provision for each individual child and to gain feedback from parents and pupils

Governor visits
Our SEND governor is Kellie Niescior-Mockford. Kellie offers support throughout the year, such as SEND reviews and learning walks. This support enable us to further evaluate the effectiveness of our SEND provision through the eyes of a 'critical friend'

Use of data
We evaluate progress data for individual children (recording in individual learning plans) and also for the cohort of pupils within our school who have SEND. This gives us an overview of the impact of our SEND provision and how effective it is. We use this information to make adjustments and adapt our approach to ensure continuous improvement.

Parental surveys
We will send out SEND surveys once a year to get feedback on our SEND provision, identifying what is working well and ways in which we can improve.

9. How do you ensure that pupils with SEN are fully included in all aspects of school life?

Click here to go back to contents page

Advocating Inclusion in all activities for all pupils

Wide range of opportunities for all

Our school offers a wide and enriched curriculum with afterschool clubs, educational day trips/experiences and residential trips, all providing a range of opportunity and experience for all pupils.

Removing barriers

We always consider opportunities and experiences that are inclusive and accessible to all. Should any child need specific support to access these activities, the school will endeavour to provide the necessary resources/training to achieve inclusivity For barriers linked to medical conditions see our policy here.

Planning ahead

See example risk assessment here

All school trips are fully risk assessed and we provide the appropriate support for children with SEND to attend all trips. For example, this may include additional adult support on the trip or the use of social stories in advance of the trip.

Extended provision

We also offer extended provision for pupils through our Breakfast club and Afterschool Club which is available to all children. Provision for any child with additional SEND will be supported.

10. How do you ensure the emotional and social development of pupils with SEND?

Click here to go back to contents page

Ensuring the emotional and social development of pupils with SEND
Whole school curriculum and ethos

Learn Together Curriculum

Through our unique Learn Together curriculum, all children learn how to show respect to others and are encouraged to make positive choices and learn together, building a strong ethos of social, moral and cultural understanding.

Incorporating specialist strategies

We have incorporated the following specialist approaches into our Learn Together curriculum to ensure that all pupils are explicitly taught emotional literacy and given the opportunity to develop social skills and understanding:

- Zones of Regulation: Leah Kuypers
- Social Thinking: Michelle Garcia Winner
- Growth Mindset: Carol Dweck

**Click on titles above for more information*

See **slide 25** for further details on our core offer and how we support social and emotional needs in the classroom

Whole school ethos and values

The school has a strong set of values based on our four principles of education that is:

- Equity Based
- Aspirational
- Child-Centred
- Collaborative

These principles support the emotional and social development of all our pupils and underpin the policy and practice of the whole school.

Additional interventions and support

Any children with a special educational need in this area (children who required support that is 'additional to or different from the core offer') have access to specialised interventions – **see slide 27** (Social, Emotional and Mental Health needs)

Ensuring the emotional and social development of pupils with SEND

How we respond to and support behaviour (including Anti-bullying)

A positive-relationship approach

We use a positive-relationship approach for how we respond to and manage behaviour in our school, taking into account individual needs. We focus on developing the relationships the children with their peers and staff. Through these positive relationships children are taught the correct way to identify and manage their emotions and take personal responsibility for their actions.

A restorative approach

We share a whole school restorative ethos underpinned by the understanding that all behaviour is communication and build positive relationships rooted in mutual respect. All of this leads to a state of belonging rather than exclusion, social engagement and meaningful accountability.

Empowering children to take ownership

Our aim is for all staff to empower every pupil to take responsibility and manage their own behaviour without external motivators, actively teaching them the lifelong skills and strategies they need for emotional regulation.

We are a setting that is sensitive to supporting children with all needs. We use our skill to support those with specific SEMH needs, including attachment and complex trauma histories and, when appropriate, these children will have individualised behaviour plans. We also use communication tools such as "Talking Boards" and "Comic Strip Conversations to support Speech and Language needs and the use of Social Thinking interventions and social stories to support an understanding of different social contexts.

Supporting pupils with SEND in relation to bullying

Please see Behaviour Policy for full details on how we seek to prevent bullying within our school.

We are aware that both victims and perpetrators of bullying will often need additional support in relation to their emotional and social development. Please see slide 27 for interventions and approaches we use.

We are mindful of pupils who may not understand when bullying is taking place or lack the communication tools to let others know. This is another reason why we ensure that a total communication approach is used throughout the school and Social Thinking skills are developed (see empowering children to take ownership)

Ensuring the emotional and social development of pupils with SEND

Pupil voice for pupils with SEND and active involvement in school community

Class charters

As part of the Learn Together curriculum, all pupils work together to create a class charter, outlining the expected and unexpected behaviours within their class community and establishing agreed behaviour systems. When necessary, children with SEND receive additional support in order to participate fully in this process.

Individual roles and responsibilities

In order to support their emotional and social development, pupils with SEND are actively encouraged to take on individual roles and responsibilities within their classroom and within the wider school e.g. fundraising projects, rights respecting council, Eco council, learning and play buddies.

Pupil voice central to Graduated Approach

As outlined in questions 4 and 4b, pupils with SEND play a central role in planning and reviewing their provision. We listen carefully to the views they express and adapt provision and targets accordingly.

Empowering pupils with SEND to get involved

We know taking on a whole school responsibility can be a challenge for some pupils. We ensure additional support to empower pupils. Here are a few examples of how we do this:

- Nurture group sessions to teach required skills
- Total communication approach is used for those with Speech and Language needs.
- Additional adult support during meetings

11. What do I do if I want to make a complaint about SEND provision at your school?

Click here to go back to contents page

Complaints directed to the school

Please follow the procedures outlined in our complaints policy which can be found here.

First-tier SEND tribunal

If you are a parent/carer of a pupil with special educational needs and/or disabilities, you have the right to make disability discrimination claims to the first-tier SEND tribunal if you believe that our school has discriminated against your child. You can make a claim about alleged discrimination regarding:

- Exclusions
- Provision of education and associated services
- Making reasonable adjustments, including the provision of auxiliary aids and services

Appendix 1
Key definitions

From SEND code of practice 2015, found here

Click here to go back to contents page

Special education needs and/or disability (SEND)

A child has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for them.

Learning difficulty or disability

A child has a learning difficulty or disability if they have:

- A significantly greater difficulty in learning than the majority of others of the same age, or
- A disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools

Special educational provision

Educational or training provision that is **additional to**, or **different from**, that made generally for other children or young people of the same age by mainstream schools.

Graduated approach to SEND support

Successive cycles of “assess, plan, do, review” used to gain a greater understanding of a child’s needs and what supports them to make progress and secure positive outcomes”.
