

Some examples of reading books for our new topic!

Fiction Books

Three children embark on a day-long trek through the rainforest, discovering all sorts of exotic creatures in their natural habitats. The charming, rhyming text highlights an adjective for each creature, from chattering monkeys to crouching jaguars. The story is complemented by educational endnotes about the creatures featured in the story, and the peoples of the rainforest.

Non-Fiction Books

Go on a journey through the world's rainforests, from the Amazon rainforest to Costa Rica, answering questions such as why on Earth does it rain so much? Where are there forests in the clouds? And how can a tree cure disease? Along with many others. It looks at medicines, monkeys, poisonous snakes, venomous spiders, stinky flowers, enormous trees, and much, much more. Crammed full of amazing animals and astonishing plants, geography has never been so exciting!

Packed to the gills with far-out facts and fascinating information, the Where on Earth? series makes standard KS2 geography topics lively, fun, pacy and interesting.
